LIHUE, KAUAI, TERRITORY OF HAWAII, TUESDAY, JULY 23, 1918

SUBSCRIPTION RATES, \$2.50 PER YEAR 5 CENTS PER COPY

BIG PARADE AND DEMONSTRATION IN HONOLULU, JULY 27

Through streets lined by thousands of people, their friends and relatives 6,000 men of Hawaii's draft army will march in parade in Honolulu on War Savings Day, July 27th.

It promises to be one of the most interesting events that has occurred in Honolulu in recent months, for, aside from the patriotic fact that these lads have just "joined up" with Uncle Sam to share the fortunes of war, everyone is curious to see what kind of an appearance our very own lads make in uniform.

People of Honolulu, and those of the sailing ports on the other islands saw these youths marching in civilian clothes, straggling along in quite unmilitary fashion with suit cases and bundles for burdens. Now they have exchanged the "cits" for khaki, the bundles for army packs, and suit cases for guns. They have had a few days or a few weeks' rigid military training and discipline.

Everyone wants to see with his own eyes, whether they are beginning to look like real soldiers at this early stage of their army careers.

Arrangements for the draft army parade has been completed by the Hawaiian Department, under direction of Brig.-Gen. A. P. Blocksom, commanding, and will bring to a fitting climax in Honolulu of the intensive 4-day campaign which will be conducted this week by the War Savings Stamp Committee, in an effort to bring Hawaii's purchase of War Savings Stamps up to schedule.

At present Hawaii is far behind in the schedule. The territory has been asked to absorb \$4,000,000 of War Savings Stamps, or approximately \$20 worth for every man woman and child in the islands, in the present year, 1918. In the first six months, half of this amount, or a per capita average of \$10 worth, should have been bought by the citizens. But they have taken only about \$2 worth per capita, leaving an arrears of \$8 worth, which the Committee now asks them to take in a lump sum.

Plans are well under way now for a well organized and intensive drive, on every island of the group, with special appeals and solicitation among the Japanese, Chinese, Koreans, Hawaiians, Portuguese and other races. A joint committee from the Honolulu Ad Club and Rotary Club, with Percy M. Pond, has taken charge of the general campaign on Oahu among the English-speaking peoples. Those in charge of the campaign on the other islands are G. H. Vicars, Hawaii; R. A. Wadsworth, Maui, and Frank Crawford, Kauai.

On Oahu, and in fact on all the islands, Consul General R. Moroi has agreed to participate actively in the appeal to Japanese to buy thrift stamps and War Savings Stamps to the limit of their financial ability. He has written an appeal in Japanese, caused it to be published and sent to at least 1000 influential men of his race in the different counties. With it he has sent a personal letter, urging each of these men to get out and work actively among the people, to the end that every one shall "go the limit" in the buying of thrift stamps, not only now, but for the remainder of the year.

Mr. C. K. Al has undertaken to conduct an active campaign among the Chinese of Oahu.

The Hawaiian Protective Association, at the request of Delegate Kahanalele and Director R. W. Shingle, has asked all the Hawaiian societies, clubs and other organizations with which it is affiliated, to conduct an equally thorough campaign among the people of that race.

Allen Wilcox Writes to His Mother

Allen C. Wilcox, son of Mrs. A. S. Wilcox of Lihue, now at the Allentown, Pennsylvania, camp established for the training of ambulance drivers, has been attached to Evacuation Ambulance Company No. 7. In a recent letter to his mother he said that he expected to be sent to France soon.

GOVERNOR ARRIVES, TOURS THE LANDS, IS WELL PLEASED

Without demonstration of any kind Governor McCarthy arrived on the Kinau last Friday morning from Honolulu to make his investigation of the land situation on Kauai. As soon as he could secure a car from the garage he left for Waimea and arrived there for breakfast.

The Governor was accompanied on this trip by B. A. Rivenburgh, Land Commissioner for the Territory and J. N. Bailey the Water man of the islands. At Waimea the party was joined by W. V. Hardy, Forest Ranger for that section of Kauai and were taken up the Waimea canyon to see the Kokee lands at the head of the canyon.

Governor McCarthy is making this inspection trip simply for the purpose of familiarizing himself with all the land phases of this island so that in the future when any question comes up that he will be able to have a picture of the land in question in his mind's eye. He has personally seen all that there is to be seen of the homestead and water situation, as he has been on the go from early morning till late in the evening, so that he would be able to cover it thoroughly.

The Governor said, "I am making this trip especially for my own information, and I will not have time for any interviews with any one, for if I stop to talk, I will not have time to get the information that I want, and neither will I be able to see all the lands in question."

Governor McCarthy is well pleased with all that he has seen and is enthusiastic over the way the Homesteaders have come to the front and with the looks of the various improved lands that he saw on the trip. He is of the opinion that if all the land that is now open or that will be opened up in the future is taken by the same class of people and that if they work as hard as these people have worked that the homesteads will prove to be an unqualified success.

The Governor leaves tonight for Honolulu and will take part in the great demonstration that is to be held there next Saturday in the interests of the War Savings Stamp campaign. He may possibly return here again in the future and will then see the various people with whom he was unable to talk to this time on account of the short time which he has had on the trip.

Auto Collision But No One Was Injured

A collision between a new Ford, which was driven by John Victorino of Kapaa and a small truck belonging to W. A. Fernandez, the moving picture man and driven by Keawe, who is the operator for Fernandez, took place on Sunday afternoon near the turn by the water tank on the road to Kapala, and resulted in the Ford having both front wheels smashed but very little damage to the truck.

Keawe was coming down the hill on the right side as he claims and met Victorino at the corner with the latter on the wrong side of the road. Nobody was hurt, and so far no complaint has been made to the police and it likely the matter of damage will be settled out of court.

Five Monte Players are Caught in Raid

Five Filipinos who had almost unpronounceable names, were the victims of a police raid at Lihue last Sunday. Monte was the game that was running in full blast when the officers arrived and exacted bail for the appearance in court on Monday. Very wisely the men stayed away on this day and their bail amounting to thirty-five dollars was declared forfeited and was paid into the coffers of the county.

Mr. and Mrs. Dan Lyons, of Elele, returned from Honolulu this morning.

Draftee Brought Back From Coast

Walter Louis Haney, charged by Captain H. Gooding Field with attempting to evade the draft by making a false statement regarding his age, and who was recently arrested in San Francisco by Federal officials acting on cabled instructions from Assistant U. S. Attorney J. J. Banks, has been returned to Honolulu and inducted into the National Army.

It is claimed that Haney, on March 7 last, stated in a questionnaire that he was 31 years of age. Subsequently, desiring to work on a ship bound for the mainland, he is said to have filed a request for permission with Captain Field, in which he stated that he was 36 years old. On the strength of this showing the draft officer claims, the permit was issued.

Subsequently Haney's questionnaire was found and Captain Field appealed to Judge Banks to have the young man arrested upon his arrival in San Francisco. Judge Banks cabled to U. S. Attorney John W. Preston at that point and Haney was taken into custody and returned here.

Haney claims that he is anxious to fight and that his arrest is the result of a mistake. He insisted that he had tried time and again to see Capt. Field, but had been informed that the draft officer was "too busy." Furthermore, he insists that he was told he could not wait around Captain Field's offices until the latter was at leisure.

Walter L. Haney referred to above will be remembered as a former resident of Kauai, and one, who as an officer in the National Guard on this island, had a very good record.

New County Food Agent Has Arrived

G. W. Sahr arrived from Honolulu last Friday to succeed A. H. Case as County Agent for the Hawaii Food Administration and is registered at the Lihue Hotel. Mr. Sahr is a graduate of the Massachusetts Agricultural College and while a comparatively young man should make a worthy successor for Mr. Case who did some good work while here, but who had to give up the position as he was an officer in the national guard.

Mr. Sahr comes here from Maui, where he has been in charge of the food crop production for the Pioneer Mill Company for the last year. He has had some valuable experience in agricultural lines and will undoubtedly prove a right man for the responsible position that he is to fill.

Kauai Boys Enter New Training Camp

Among the forty enlisted men of the Second Hawaiian Infantry that are attending the School for Officers at Schofield Barracks are Sgt. D. P. Hano of Kealia Company, Sgts. V. Cobacha, E. F. Fase and U. Ishii of Lihue Company.

It is proposed to give them one month of intensive training and then commission them in order to relieve the existing shortage of officers.

THIS WOMAN DOES NOT BELIEVE IN HOVERIZING ON THE HUSBAND QUESTION

The case of Marcelina Madelias who is charged with violating the laws of the territory in having more than one husband will come up before Judge Hofgaard in Waimea today.

Sometime ago a Filipino man and woman came to the Judge and after presenting a marriage license said that they had decided to get married. Judge Hofgaard did the deed. A short time thereafter another Filipino came to the front and showed a certificate of marriage with this same woman. It seems that she married her in the Philippine Islands and that she had come to this country with him. He asked that she be arrested and this she was.

Mr. and Mrs. G. L. Samson, of Honolulu, accompanied by their daughter, Hazel, arrived this morning and will be the guests of Mr. and Mrs. Hopper, of Lihue.

Working Reserve Boys Are Working Hard

The U. S. Working Reserve boys who are stationed on this island are covering themselves with glory and red dirt.

Mr. Warner who is in charge of the camp which is located at Makaweli, says that they are getting more work and a better attendance at this work, from the boys than they are out of the regular plantation laborers, and that the boys seem to enjoy the hard work and the early rising. But it is not all work that is being done at this camp. On Friday and Saturday afternoons the boys have a regular program of sports. They have made up teams for football, baseball, volleyball and other games and have a grand time on these days.

The most popular man in camp is the cook and he has to be on the job most all the time to satisfy the voracious appetites of these young men. The boys have a well appointed cook house with an outdoor oven and stove for the cooking of rice and other good things.

The school rooms are used for sleeping quarters and kept very neat and clean. A large sign which greets you as you enter the door of each, says: "Clean your feet before entering." All in all the camp is a very nice looking place and plainly shows the good management of the men in charge.

Makee Sugar Co. Will Hold Big Celebration

In accord with the Proclamation of our President, and in response to the Proclamation of our Governor, urging the people to make the 27th of July a day of "loyal and sincere effort for our country and toward her cause," the people of the Makee Sugar Co., the co-operation of other plantations, and of the Kawaihau District, with societies and residents of Kauai who may be able and willing to join them, will make holiday on Saturday the 27th instant at the old Race Track (near Waiau River) for the purpose of celebrating this, our new, National War "Savings Day" in a proper manner.

A program for the day will be issued at an early moment, but this preliminary notice announces that the purpose of the holiday is simply and only to aid in carrying out the advice and request of the President, and Governor, to subscribe to the full extent of our means for War Savings Stamps and "to promote their sale to others."

Horse Races, Ball Games, Athletic Sports, Japanese Wrestling, Tug of War, and various other amusements, as well as patriotic Mob Singing will be carried on, and an Old-fashioned Luncheon of the Luau order will be provided under the direction of that well known native culinary artist, von Ekekele.

The object being "the sale of War Savings Stamps," charges will be made for admittance, entrance of autos, places, seats in the grand-stand or any thing that may be chargeable; but full return for all monies taken in will be made in War Savings Stamps. The excess expense will be borne by subscriptions, donations etc., thus giving the persons of small means a greater incentive for investing in the securities of the Government.

The Kealia Store will give information and sell Stamps for the purposes named.

NOTICE!

The following notice refers to the Notice of Sale of Waimea Town Lots appearing on page 5 of this issue.

NOTICE OF WITHDRAWAL

Notice is hereby given that Lots Nos. 7, 8, 14, 56, 59, 60, 61, 62, 63, 64, 65, 67, 68, 69, 70, and 71 are hereby withdrawn from the foregoing sale.

B. G. RIVENBURGH,
Commissioner of Public Lands.

Mrs. Bertelman has been appointed as assistant post mistress at Makaweli in the place of Mrs. Brown who resigned to go to the mainland to take up war work.

HILO ROUNDS UP HER IDLERS AND MAKES THEM WORK

The action of the Hilo authorities in rounding up all idlers and bums and resulting in a net full of 50 men of all nationalities, is a movement, if directed in the right direction, that might well be emulated on all the islands where this kind of gentry are to be found.

The ultimatum given the men by Chief of Police Richardson, of Hilo, was, that if the men had not secured work within two days, or had left for other parts, that they would be arrested and landed in jail, charged as vagrants. Bums and idlers have no place anywhere in America these days and should be forced to work.

Chief Richardson probably thought that he was doing the right thing in moving these men on to some other community and in letting the other community shoulder the responsibility of having these loafers around. However, the thing that he should have done can be best shown by the example of what the State of Texas used to do before the war, and I suppose that they are doing the same now.

When a man was discovered by the police, who had no visible means of support, he was promptly sentenced to three months in the work house, and while there he was made to work on the roads or any other work that was necessary and for this was paid a minimum wage. No one was ever heard of who deliberately tried to get a job in this manner. Consequently the "men who thought that the world owed them a living," gave Texas a wide berth in their travels and Texas has been since then extremely "bumless."

It is needless to say that this law did not affect the legitimate working men in the state and was only intended for, and used against the men "man who is always looking for work and praying all the time that he will not find it."

Is Presented With a Beautiful Knitting Bag

"The workers of the Waimea and Kekaha Branch of the Western Kauai Unit, American Red Cross, wish to present this little token as an appreciation of the untiring interest you have taken in the good Cause and kind help you have given them all."

With these few words a beautiful knitting bag was presented to Mrs. Eric Knudsen the vice-chairman.

Mrs. Knudsen desires to thank the workers for this most beautiful bag and takes this manner of so doing.

Entertainment by the Young Ladies of Lihue

The young ladies of Lihue are preparing to give a benefit entertainment at the Tip Top theater on Friday evening, August 2nd. The program will consist of a one act farce entitled, "The Mouse Trap," and the Turkish pantomime, "Shireen." Misses Edith and Juliet Rice are at the head of the affair and are working very industriously to make it a success.

The children of the neighborhood were treated a few days ago to a pony show. The little animals were well trained and gave a very good example of what a little time and patience will do to dumb animals. The show was given at the Armory as the Tip Top was not available on the nights that the show was in Lihue.

Charles A. Rice has been appointed by Governor McCarthy to the vacant place on the Food Commission for Kauai. Mr. Rice is well qualified for the position, and undoubtedly will make the home production of food on this island, a great deal more important than it is now.

THE GOSPEL STORY IS TOLD IN SERIES OF LIVING PICTURES

The Scripture Tableau Service given by the Lihue Union Church on Sunday evening at the Tip Top was one of the most original and successful things that has yet been given in this community.

This service grew out of the Sunday School study of the Gospel of Mark during the last few months, with a view to impress the lessons by means of a graphic presentation to the eye such as would have a lasting image on the mind.

The scenes were carefully worked out in harmony with the Gospel story and also in harmony with the customs and manners of the times; in all dignity and with all reverence, so that no violence should be done to the spirit and tone of the great teaching. A great deal of originality and facility was shown in the costumes, in which the simplest devices yielded the most artistic and pleasing results.

There were in all about a dozen scenes, in which some three dozen characters were represented. Several of these scenes were large, and were effective and impressive because of their richness and variety; but some of the smaller ones with only two or three characters, were equally charming because of their simplicity, and chastened harmony.

In most of the scenes the central and dominating figure was Christ himself, represented most appealingly with perfect reverence and charming simplicity and dignity. In fact throughout the whole performance, both on the stage and in the audience a quiet, reverential interest held the attention of everyone.

In a few of the scenes the tableau method of presentation was abandoned in favor of simple dramatic action; and in "Blind Bartimeus" and "On the Way to Emmaus" the sympathetic acting was most effectively and impressively done;—so much so that there were furtive tears in many eyes.

One of the practical difficulties about tableau entertainments, is the wait between scenes, but this was obviated by the scripture readings descriptive of the scenes, and some very acceptable singing was furnished by a selected choir. There was also a choice duet contributed by the Koloa church.

There was a large and representative audience, made up of all classes and races, the aim of the service being to reach many thus through the eye who could not readily be reached through the ear, because of the diversity of teaching and training.

Roof Paint Now is Used for Tree Wounds

Found to be an Economical Way for Sealing Abrasions

Many orchardists and tree surgeons have found that the best way and most economical way of treating tree wounds of all kinds is to cover them with roof paint. It is easy to apply and farmers throughout the country have used it with benefit in the treatment of abrasions, cuts and grafting. It is heavy enough in body to form a thick coating over the wound, thus preventing insects and the elements from harming the tree. It is also very easy to apply.

A professional tree surgeon and pruner who is taking care of some 20,000 trees, writes enthusiastically about it for use on citrus trees. "It is," he says, "the best thing I have ever used or heard of, and being so well satisfied I heartily recommend Oronite Roof Paint to any and all orchardists who may be interested in such a paint."

The use of this paint is undoubtedly the best, most convenient and economical way of healing abrasions of trees, and it greatly prolongs their life and productiveness.

Mrs. Davis, mother of W. E. Davis of Grove Farm, departed for her home in San Francisco last Saturday evening, after a two months visit with her son and his family.
